DETAILED ACTION

Response to Amendment

1. The amendment and remarks filed April 2, 2007, are noted with appreciation
2. Claims 16-30 and 33 remain pending.

Information Disclosure Statement

3. The information disclosure statement (IDS) submitted on April 2, 2007, was filed after the mailing date of the first Office action on the merits on April 17, 2006. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Response to Arguments

4. The objections and rejections set-forth in the prior Office action (04/17/2006) are withdrawn in view of the amendment (04/02/2007).
5. New grounds of rejection, necessitated by the amendment, are set-forth below.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 22-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. Claim 22 recites the limitation "the ready solution" in line two of the claim. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 1762

B. Regarding claim 24, the phrase "namely" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claim Rejections - 35 USC § 102

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

9. Claim 26 is rejected under 35 U.S.C. 102(b) as being anticipated by Miyanohara et al. (US 4,376,106 A).

A. Claim 26, as amended, is now a "product-by-process" claim. Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process. Once the Examiner provides a rationale tending to show that the claimed product appears to be the same or similar to that of the prior art, although produced by a different process, the burden shifts to applicant to come forward with evidence establishing an unobvious difference between the claimed product and the prior art product.

B. In the instant case, claim 26 merely claims a sodium aluminate solution in demineralized water or in a demineralized water/extender mixture.

C. Miyanohara teaches just such a solution in Example 6. Please see the attached definitions of "demineralization" and "deionizing" as evidence that these terms are synonymous in the art and that Miyanohara's deionized water anticipates this claim.

Allowable Subject Matter

10. Claims 16-21 and 33 are allowed.

11. Claims 22-25 and 27-30 would be allowable in their current, dependent form if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

12. The following is a statement of reasons for the indication of allowable subject matter: While alkali metal salts are known in the resin-coated paper art as anti-static agents (see US 5,006,451 A), the prior art neither teaches nor suggests their application in solution form during printing with metal effect inks, as claimed.

Conclusion

13. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

14. The prompt development of clear issues in the prosecution history requires that applicant's reply to this Office action be fully responsive (MPEP § 714.02). When filing an amendment, applicant should specifically point out the support for any amendment made to the disclosure, including new or amended claims (MPEP §§ 714.02 & 2163). A fully responsive reply to this Office action, if it includes new or amended claims, must therefore include an explicit citation (i.e., page number and line number) of that/those portion(s) of the original disclosure which applicant contends support(s) the new or amended limitation(s).
